

## The MugMasters Emergency Mug Survival Guide

Be prepared for any mug-related crisis:

1. No mug available? Use cupped hands (caution: not suitable for hot beverages).
2. Mug too hot? Create an impromptu holder with a folded paper towel.
3. Stuck with a tiny espresso cup? Refill frequently to maintain hydration.
4. In case of mug shortage, designate one mug per family and create a strict sharing schedule.

Remember: In a true mug emergency, any container can be a mug if you believe hard enough.
