

The Art of Mug Stacking: Reaching New Heights

At MugMasters, we believe in pushing the boundaries of mug usage. Here's how to create impressive mug towers:

1. Start with a sturdy, flat-bottomed mug as your base.
2. Stack mugs of decreasing size on top of each other.
3. Use handles for balance and artistic flair.
4. Aim for at least 5 mugs for amateur status, 10 for pro-level stacking.

Warning: MugMasters is not responsible for any avalanches caused by overly ambitious stacking.
