

## Mug Customization: Expressing Your Inner Mug

Make your mug truly yours with these personalization tips:

1. Use ceramic paint to add designs. (Warning: Artistic talent not included with mug purchase)
2. Attach googly eyes for a mug that watches you back.
3. Knit a tiny sweater for your mug for those cold winter days.
4. Give your mug a name and introduce it to your other kitchenware.

Remember: A personalized mug is a happy mug!
